How to use this RACE Planning Template

Welcome

Thanks for downloading this Smart Insights template. We hope you find it useful in your planning to make more use of digital marketing. It’s a sample of a wider selection of our advice for marketers including 7 Steps Ebooks; online training courses; how-to-videos and marketing toolkits. See the full range of content used by our Expert members.

First things, first...

Digital marketing planning is no different to any other marketing plan, in fact it’s increasingly strange to have separate plans for ‘digital’ and ‘offline’ since that’s not how your customers perceive your business. However, we’re often required to separate plans for “digital” only based on the way teams and reporting is structured and to help the transition to digital - before it becomes “business as usual”.

Some general advice to keep in mind when planning

- **Start with the customer.** Build your plan around customer insights and needs - not around your products and tactics.
- **Keep it flexible.** Situations and plans change, especially online, so ensure plans are usable by a clear vision for the year and keeping detail to a shorter term 90-day focus.
- **Set realistic goals.** Include specific objectives in your plans but keep them realistic by basing them on insights from your analytics, so they’re easy for others to buy into.
- **Keep it Simple!** “Jargon light” is best. Again it helps others buy into what you’re saying.
- **Keep plans up-to-date.** Review and update regularly. We recommend 90-day planning.

Creating a structure for your plan

Knowing where to start is often the hardest thing when writing a digital marketing plan. So once you have a structure / framework to follow in a table of contents, it’s then almost a matter of filling in the gaps...

At Smart Insights we developed the **RACE™ planning system** to help create actionable plans using integrated communications to engage and persuade customers based on understanding customer needs using analytics and insight. This template is based on RACE™ planning, but you also find the **SOSTAC®** planning tool useful - see Plan.

Creating a brief, focused digital plan

**Strategy Recommendation 1. Create a brief, focused digital plan**

SOSTAC® is an awesome general planning tool, but it can lead to long plans. To make your digital plans clearer and more actionable in companies of all sizes we recommend creating a single table to communicate to colleagues.

This next single page summary format helps create integrated plans. For each part of
RACE™ use this table to summarise the key points of your plan:

- **Opportunity.** Your quantifiable SMART objectives based on your analytics and market insights. State your assumptions and what informs your objectives.
- **Strategy.** Where you will focus your resources and investment to hit your targets.
- **Action.** Managing tasks to implement your strategies.

Using SOSTAC® planning

PR Smith’s SOSTAC® Planning System gives a great framework for business or marketing plans since it’s simple and logical, so it’s easy to remember and to explain plans to colleagues or agencies. You can divide each part of RACE™ in a similar way, but we prefer the simplicity of Opportunity, Strategy, Action within each of the RACE planning activities.

What is it? SOSTAC®

SOSTAC® is a planning process framework to help structure and manage implementation of plans. It stands for Situation, Objectives and Strategy, Tactics, Action and Control originally developed by PR Smith for marketing communications planning. In their book Emarketing Excellence Dave Chaffey and Paul Smith have adapted the SOSTAC® framework to apply it to digital marketing as shown in the diagram on the next page.

Benchmark your capabilities compared to your competitors

We’re big fans of scoring the current digital marketing capabilities of a company, so you can show your colleagues how your different digital marketing activities rate now and how they need to be improved in future. This is a core technique for arguing for additional investment in digital marketing and for reporting on progress.

Recommended resource? Smart Insights Benchmarking Tools

We have developed a series of tools to help develop strategy and to make the case for more investment in digital marketing. These are:

- **Digital Strategy Toolkit**: Expert members can download examples and editable template as part of our which includes PowerPoint, Word and Excel templates to help build your marketing plan and explain to colleagues or clients.
- **Digital Marketing Healthcheck**: Score your company or clients in the 5 key areas of PRACE. This is more suited to small and medium sized companies and is available free for use by Basic members.
- **Digital marketing audit**: A more detailed spreadsheet based technique for assessing a company in 6 key areas. More suited to larger organisations or use by consultants.
- **Business case template**: Improvement needed can be justified through this template and the companion Ebook.
